

Culligan Water®

Better water starts here.

Aquasential™ Select Plus Series™ and Select Series™
Whole House Water Filters

Good water should be simple.

Problem water takes on many different aspects: The bad odor, the hazy look of too much sediment in the water, and the corrosive effects of water with a low pH. All different.

Culligan has effective solutions to these and other water problems you may have. All Aquasential Smart Water Filters are customized to handle your specific type of problem water.

An Aquasential Select Plus or Select Whole House Water Filter is the simple and affordable way to give you cleaner, safer water and more peace of mind.

**With the Aquasential™
Select Plus Series™ and
Select Series™ Water Filters,
you'll get...**

BRIGHTER LAUNDRY

Culligan® Filtr-Clear® Water Filters... For Taking Care of Sediment Problems.

Cloudy, hazy water gets that way due to sediment in the water. The Culligan Filtr-Clear water filter removes dirt, silt, clay and other types of sediment from your water supply¹. Not only that, the Filtr-Clear filter is four filters in one. They work at different levels, stacked on top of each other, each removing a particular size of sediment particle. All you end up with is good, clear, top quality water. The Filtr-Clear filter treats all the water in your house, not just water from one faucet.

Culligan® Cullar® Water Filters... For Taking Care of Taste and Odor Problems.

Cullar filters are activated carbon filters designed to reduce contaminants that cause water to taste and smell unpleasant, including the taste and odor of chlorine. They also work against most discoloration problems.

Culligan® Cullneu Water Filters... For Taking Care of Acid Problems.

Acid water, or water with low pH, can wreak havoc on your pipes and porcelain fixtures. The acids eat away at the iron and copper on pipes and unlined heaters, leaving behind red or blue stains. The Cullneu filter reduces the stains and pipe damage by neutralizing the acids in your water supply and filtering out any rust particles.

HEY CULLIGAN!

At Culligan, we've been committed to providing superior water treatment products for over 85 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. And they're supported by your local Culligan Water® dealer, a water expert that can also provide salt delivery, filter and media changes, rentals and financing options.

¹ These reductions are not certified by WQA.

SYSTEM BENEFITS

- Reduces sediments¹ in your water making it crystal clear throughout the entire house.
- Reduces contaminants* that cause water to appear, taste and smell unpleasant.
- Reduces taste and odor of chlorine.
- Prevents pipe damage and staining from low pH water.

*contaminants may not be in your water

Product Specifications

Exclusive Culligan Select Plus Series™ and Select Series™ Design and Technology:

- Control valve is available in 3/4" with the Culligan Select Series and 1" with the Culligan Select Plus Series.
- The low voltage, fully programmable Accusoft® Microprocessor offers easy data entry performance options that can be set at the touch of a button, to meet individual needs.
- All programming is safe from most power interruptions and surges.
- The Guest-Cycle recharge feature provides an extra supply of conditioned water when there are more people than normal in the home.

Exclusive reliable design:

- Exclusive, non-corrosive 4-cycle motorized control valve directs water flow during service and reconditioning cycles.
- Sturdy filament-wound exterior, and smooth non-permeable inner tank.
- Culligan Select Plus Series and Select Series is available in an outdoor model.

Maximum efficiency:

Cullneu, Cullar®, and Filtr-Clear® media provides maximum water filtering capacity, stability and long life.
