## Benefits

- Saves over thousands single-serve bottles annually
- Touchless dispensing
- High-capacity ice production with 13lbs of storage to meet most office needs
- Stainless steel storage tank water capacities:
  - COLD - 1.2 Gallons (4.5 Liters)
  - HOT - .75 Gallons (2.8 Liters)
  - AMBIENT - 4.5 Gallons (17 Liters)

## The Culligan advantage

- ✓ Installation and support from a trusted dealer network
- ✓ Proven, 85-year commitment to quality
- ✓ Local water quality expertise
- ✓ No. 1 provider of eco-friendly, sustainable water filtration solutions
- ✓ 8.5 million offices and homes rely on Culligan drinking water

## Multi-stage reverse osmosis filtration process

- 1 Sediment Filter – Reduces large contaminants or particles.
- 2 Pre-Carbon Filter – Can remove particles as small as 10 microns.
- 3 Dual Reverse Osmosis (RO) Membrane – Reduces contaminants such as lead, arsenic, chromium, copper and other metals.
- 4 Mineral Carbon Filter – Polishes the water for great taste and also adds minerals to the filtered water.

It's time to upgrade your office water.
