EXPERIENCE THE DIFFERENCE CULLIGAN CAN MAKE.

CULLIGAN® HE FILTER

High-Efficiency Water Filter

Better Water Means Better Living.

Problem water takes on many different aspects: The bad odor, the hazy look of too much sediment in the water, and the corrosive effects of water with a low pH. All different.

Culligan has effective solutions to these and other water problems you may have. All Culligan filters are customized to handle your specific type of problem water.

LIFE IMPROVEMENTS

BRIGHTER LAUNDRY

NO ODOR

CLEAR DRINKING WATER

REDUCES STAINS

Control Your Filter from Anywhere in the House

Minimize trips to the basement or garage with our optional remote display. It warns of any problems and gives you push-button control over functions—like activating the electronic bypass valve to water your lawn.

Smart technology

Smart technology means you get “set it and forget it” convenience. With an optional modem, Culligan HE Filter will even alert your Culligan dealer if media needs to be replaced or your filter needs service so the dealer can arrange a service call before you even know there is an issue!

SYSTEM BENEFITS

- Removes sediments in your water making it crystal clear throughout the entire house
- Reduces contaminants* that cause water to appear, taste and smell unpleasant
- Reduces taste and odor of chlorine
- Prevents pipe damage and staining from low pH water

**contaminants may not be in your water*

Culligan® Filtr-Clear® Water Filters

Cloudy, hazy water gets that way due to sediment in the water. The Culligan Filtr-Clear water filter removes dirt, silt, clay and other types of sediment from your water supply. Not only that, the Filtr-Clear filter is four filters in one. They work at different levels, stacked on top of each other, each removing a particular size of sediment particle. All you end up with is good, clear, top quality water. The Filtr-Clear filter treats all the water in your house, not just water from one faucet.

Cullar® Water Filters

Cullar filters are activated carbon filters designed to reduce contaminants that cause water to taste and smell unpleasant, including the taste and odor of chlorine. They also work against most discoloration problems.

Cullneu® Water Filters

Acid water, or water with low pH, can wreak havoc on your pipes and porcelain fixtures. The acids eat away at the iron and copper on pipes and unlined heaters, leaving behind red or blue stains. The Cullneu filter reduces the stains and pipe damage by neutralizing the acids in your water supply.
